You can audition with whichever material from the above you would like. However, if you are auditioning for Beverley, Hannah, Kevin T or Claude, you will need to audition with their material.

For example, if you are auditioning for Janice, you might audition using the Beverley material. If you are auditioning for Claude, you must audition using the Claude material.

You only need to pick one - if you are auditioning for both Beverley and Hannah, pick whichever you feel most shows what you can do!

Everyone will sing the harmony piece in groups as part of the audition process. If you have not attended a workshop to learn the material, feel free to sing the melody or learn a harmony line at home. This is more about listening and blending than learning a perfect harmony line.
